Château Garden Planter

Solid teak with turned finials, recessed paneling, and antiqued brass corner brackets. The Château Garden Planter is built in a French-inspired architectural form designed to frame greenery with structure and proportion. Left outdoors, the teak weathers naturally into a soft silver-grey patina. Suited to entryways, terraces, courtyards, and formal garden settings where planting becomes part of the architecture.

SPECIFICATIONS

MATERIAL	Solid teak hardwood
FINISHES	Antique Cream · Estate Black · Weathered Teak · Sage Manor Green
HARDWARE	Antiqued brass corner brackets
